

# ŠKODA SUPERB SCOUT

**ŠKODA**  
SIMPLY CLEVER

A blue ŠKODA SUPERB SCOUT is parked on a gravel road in a mountainous landscape. The car is shown from a rear three-quarter view, highlighting its rugged design and roof rails. The background features a steep, forested hillside with a cable car system and a stone wall with a wooden signpost. The scene is bathed in the warm light of a low sun, creating a serene and adventurous atmosphere.

# MADE FOR MORE THAN KERBSTONES

Even if the urban jungle offers some kind of adventure, the real excitement sometimes starts where normal streets end. Fortunately, the ŠKODA SUPERB SCOUT is at home on both terrains. In the exclusive combi version it combines the comfort of a city limousine with the off-road character of an SUV.

Not only does it look elegant all round, it's also protected all around. Thanks to the rough road package and the higher chassis, flying stones and dust are no bother – no matter where the 4x4 drive takes you.

So if you would like to drive over other stones in addition to kerbstones the ŠKODA SUPERB SCOUT is the right car for you.

That's Simply Clever. That's ŠKODA.

# SOMETIMES EVEN STONES JUMP FOR JOY

The SCOUT is ready for any challenge. It comes with protective exterior elements, which give the elegant SUPERB robustness and a tougher look. They also help protect the body when driving beyond paved roads.

**PROTECTIVE ELEMENTS**  
The Scout version features among other things an add-on part on the front bumper in silver as well as black plastic covers on the wheel arches and door sills. The higher chassis is equipped with the rough road package, so you can go off paved roads without trepidation.

**BADGE**  
As proof of the car's off-road ability there's a badge included on the front wings.

**REAR VIEW**  
The rear bumper with a silver protective cover lends the car's body a tough appearance.

**EVEN WHEN OFF ROAD  
ALWAYS ON TRACK**

## HIGH-END EVEN AFTER HIGHWAYS END

While the car handles bumpy roads, you'll stay in absolute comfort inside the incredibly spacious interior, surrounded by high-quality materials and details designed exclusively for the Scout version. All made with ŠKODA's craftsmanship precision.

**COMFORT AND FUNCTIONALITY**

For your maximum comfort, the Scout version can be upholstered with a combination of black Alcantara® and leather/leatherette. The electrically-adjustable driver seat with built-in memory comes as standard.

**STYLE AND SAFETY**

The multifunctional leather steering wheel, which lets you control the radio, phone and alternatively DSG, is equipped with heating function, controlled via the infotainment system.

**STYLISH DETAILS**

The dashboard features the original Scout badge and remarkable Ash Brown décor (shown) or Dark Brushed décor with a decorative chrome strip. The LED ambient lighting running along the inside of the car offers ten appealing colour options.

**LOGO**

The Scout logo is embroidered on the front seat backrest.

# DISCOVER THE UNDISCOVERED

This car is ready for any adventure. With its 4x4 drive and off-road skills, it's ready to handle any terrain from potholes or mud to steep hills, while you and your family stay safe and comfortable.

## ALL-WHEEL DRIVE

The 4x4 drive is provided by an inter-axle electronically controlled multi-plate clutch. The coupling of the rear axle is automatic, so under normal conditions the car can utilise the advantages of front-wheel drive, and under extreme conditions the excellent traction of the 4x4 drive.

## OFF-ROAD MODE

With the intelligent Off-Road Mode system, which operates at speeds of up to 30 km/h, you can handle even extreme terrain. It is designed to adjust the characteristics of the engine, electronic assistants and stability control systems. The activated functions are shown on the infotainment display.

## DYNAMIC CHASSIS CONTROL

Your car can be equipped with the Dynamic Chassis Control (DCC), which continuously evaluates and responds to various driving situations (braking, acceleration, turning), adapting the damping characteristics. DCC always comes in combination with Driving Mode Select and allows you to choose Comfort, Normal or Sport mode.

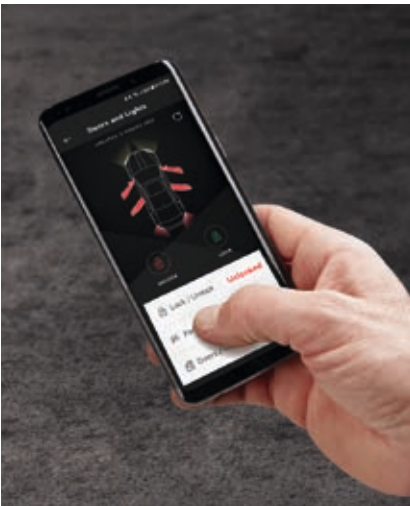

# ŠKODA CONNECT: TAKE THE ONLINE WORLD WITH YOU

To be online fully and permanently means not only having access to entertainment and information, but also possible assistance while on the move. ŠKODA Connect is your gateway to a world of unlimited communication possibilities.

## PARKING POSITION

See the exact location of your car from anywhere. MY ŠKODA App shows the address, time and date of parking on your phone.

## LOCK & UNLOCK

This feature allows you to comfortably Lock and Unlock your vehicle via MY ŠKODA App no matter where you are. For example, in case you forgot to lock your car, you can easily do so with your smartphone from anywhere.

## ŠKODA CONNECT / CAR INFOTAINMENT

The ŠKODA Connect includes two types of service.\* Infotainment Online delivers real-time information about traffic and more, Care Connect focuses on help and safety, enabling remote access and control of the vehicle. It also offers assistance for any situation that needs it. The Infotainment Online service is available exclusively in combination with navigation. The SUPERB comes with a new generation of infotainment offering new functions. The Bolero 8", Amundsen 8", and Columbus 9.2" infotainment systems with navigation can be operated via Laura, the digital assistant. This new enhanced and online-based voice control system can answer queries about a wide variety of topics and follows commands. The Web radio feature comes as a bundle in combination with the Columbus and Amundsen infotainment systems.

\* These services are accessible within the MY ŠKODA App.

## eCALL

An SOS call is made automatically during an emergency on the road. The system can also be activated manually by pressing the red button on the roof console.

## ONLINE TRAFFIC INFORMATION

Up-to-date information gives you a perfect overview of every trip. It also enables you to react to new developments, such as roadworks, accidents and traffic jams. Also, local hazard information will warn you in case any inconvenience occurs on your way, such as difficult conditions or limited visibility.

## SMARTLINK

With the SmartLink system (ŠKODA Connectivity bundle supporting MirrorLink®, Apple CarPlay, Android Auto) the car's infotainment system enables the driver to safely use the phone while driving. Plus, all installed applications that are certified as safe for vehicles are compatible with MirrorLink®, Apple CarPlay or Android Auto. The latter two are also available wirelessly.\*\*

## SHOP / INFOTAINMENT APPS

Thanks to the shop accessible via the infotainment system, you can purchase data plans, extend your ŠKODA Connect licence, and download infotainment apps. For example, you can get a detailed weather report for your current location or anywhere else with the Weather app. Infotainment apps will be regularly updated and more apps will be added over time.

\*\* For further information regarding wireless functionality, contact your ŠKODA partner. For usage terms and compatibility information for SmartLink, visit our website.

\* Specifications measured according to the WLTP (World harmonized light-duty vehicles test procedure) will be provided by importers.

The diesel engine uses Selective Catalytic Reduction. This system injects AdBlue® to reduce mono-nitrogen oxides (NO<sub>x</sub>). The volume of the AdBlue® tank is 16 l and consumption depends on the driving style.
