

THE NEW ŠKODA KAROQ SPORTLINE

ŠKODA
SIMPLY CLEVER

FOR THE SPORT CALLED LIFE

They say there is no rest for the restless. But the new ŠKODA KAROQ SPORTLINE is certainly a comfortable way to unleash your active ambitions. Instantly attractive, the car announces its sporty spirit with its athletic clothing. Glossy black exterior details, an extended roof spoiler, and many other immaculate additions make it an absolute stunner. Inside, the story continues with sports seats, sports steering wheel and pedals that make stepping-in equally rewarding. And with the optional eager-to-impress 2.0 TSI engine with 140 kW output, driving to your favourite outdoor excursion will be as exhilarating as the sport itself.

That's Simply Clever. That's ŠKODA.

FLEX YOUR SPORTY MUSCLE

The robust yet compact body of the new KAROQ SPORTLINE confidently shows off the car's sporty charisma, even when standing still.

STYLE AND FUNCTIONALITY

The bumpers in the SportLine's design are accompanied by exterior elements in glossy black and matt black, such as a front grille frame, external side-view mirror caps, window frames, and roof railings, that emphasise the car's sporty style. The dynamic appearance of the exterior is enhanced by the 18" black or 19" anthracite (shown) alloy wheels. The original SportLine badge on the front wings is indispensable.

LIGHT DESIGN

The car comes with full LED Matrix headlights, which combine a unique design with state of-the-art technology. The tail lights are also fully equipped with LEDs. Fitted with animated turn indicators, TOP full LED tail lights greatly improve the visibility of your car for other drivers. In addition (depending on surrounding light intensity), when you lock and unlock your car, the welcome effect activates the animation feature.

STYLISH REAR

The rear features inscriptions in black (such as ŠKODA, the model name or 4×4), a robust bumper with a black diffuser, and decorative exhaust pipe end pieces in a chrome design. The extended roof spoiler underlines the car's distinctive appearance while improving its aerodynamics. The SportLine version also comes with side trims in body colour (lower part of the door), and SunSet tinted windows as standard.

SPORT MODE IS ALWAYS ON

The dynamic exterior is perfectly matched by an equally impressive black interior that combines sporty style and elegance. It includes, among other things, front sports seats, a sports steering wheel with SportLine plaque, upholstery with ThermoFlux function, distinctive décor, LED ambient lighting, and much more.

FRONT SPORTS SEATS

The front sports seats provide maximum comfort even during a dynamic drive. Thanks to the specific fabric upholstery with ThermoFlux function, which ensures more breathability, the passengers can enjoy maximum comfort in all climatic conditions.

SPORTS STEERING WHEEL

Your driving pleasure is enhanced by the multifunctional 3-spoke sports steering wheel in perforated leather, with silver stitching and an original SportLine plaque. The optional Virtual Cockpit, which can display onboard computer specifications in combination with other information, offers five layouts with specific graphics controlled via the View button on the steering wheel. In addition, the SportLine version features special graphics for Sport View (shown).

DECORATIVE ELEMENTS

The interior features a variety of decorative elements, such as silver stitching (leather steering wheel, gear stick sleeve, and front armrest), chrome details, and air vent frames in black. The dashboard is complemented by a Piano Black décor, while doors feature a Carbon décor, which emphasises the sporty spirit of the car.

DOOR SILL STRIPS / WELCOME LOGO

The door sill strips in the front bear the KAROQ inscription, while the LEDs on the front doors' underside, projecting the ŠKODA inscription, illuminate the entry area.

PEDAL COVERS

The stylish interior is complemented by sports pedal covers in alloy design. The rubber facets on the pedals prevent your shoes from slipping.

WLTP – World harmonized light-duty vehicles test procedure.
The weights depend on the equipment of the car.
() Applies to the version with automatic transmission.

The diesel engines use Selective Catalytic Reduction. This system injects AdBlue® to reduce mono-nitrogen oxides (NO_x).
The volume of the AdBlue® tank is 12 l and consumption depends on the driving style.

Specifications may differ depending on the engine and wheel drive.

* Applies to the version with VarioFlex system.
