

THE NEW ŠKODA

KAROQ SCOUT

ŠKODA
SIMPLY CLEVER

ADVENTURE IS IN ITS DNA

Meet a car that's hungry for adventure. With its athletic performance underpinned by a rugged design, the new ŠKODA KAROQ SCOUT is eager to transport you beyond the ordinary.

Its crystalline design language is strengthened by protective elements all around the car, including reinforcements of the front and rear wheel arches, spoilers and door sills. Its 4x4 drive means that off-roading will feel like you're still on the road. And being a true-blooded ŠKODA means it comes with a host of Simply Clever features which will prove handy on any escapade.

The KAROQ SCOUT is yet another example of our philosophy of making beautifully designed cars that are as much a joy to drive now as they were back when we started.

That's Simply Clever. That's ŠKODA.

TOUGH NEVER LOOKED SO SMOOTH

The KAROQ SCOUT's determined look is styled by elements in silver, like the lower part of the door sill covers, the add-on part on the front and rear bumper, the diffuser, roof railings, external side-view mirror caps as well as the chrome strips around the side windows.

NO CHINKS IN THIS ARMOUR

The KAROQ SCOUT is ready for any road, or the lack of one. This is made possible thanks to the rough road package which includes, for example, engine and transmission protection, allowing you to go off paved roads without fear.

BADGE

The car features the original Scout badge on both front mudguards.

STYLE AND FUNCTIONALITY

The sharply cut headlamps and fog lamps of the KAROQ also appear on the Scout version. The top-spec trim is all about LED technology. The distinctive exterior is underlined with unique 18" Braga or optional 19" Crater (see photo) anthracite alloy wheels. The high performance and off-road capability of the car is ensured by agile engines like the 1.5 TSI with 110 kW output (petrol) and 2.0 TDI with 110 kW and 140 kW outputs (diesel), all exclusively in combination with 4x4 drive.

LOGO

You will also find the original Scout logo on the dashboard.

INTERIOR DESIGN

The interior features sophisticated fabric upholstery in a combination of black and brown. The Scout logo is embroidered on the seat backrests. Thanks to the side support provided on the front seats, you can enjoy maximum comfort while driving on any kind of terrain.

A detailed view of the interior of a Skoda Karoq Scout. The image shows the driver's side, featuring a black leather steering wheel with the Skoda logo and 'AIRBAG' text. The instrument cluster has green-lit dials for speed and tachometer, with a 'P' for park. The center console has a large infotainment screen displaying the 'SCOUT' logo. The gear shift is a modern, black, leather-wrapped lever. The interior is accented with green LED ambient lighting and wood trim on the door panels.

EXPLORATION BEGINS INDOORS

A host of modern equipment awaits you inside the KAROQ SCOUT. It includes, among other things, the multifunctional leather steering wheel, which enhances your driving pleasure. LED ambient lighting with ten appealing colour options sets the perfect mood for any journey. In addition, you can opt for the Virtual Cockpit and the Columbus navigation system with 9.2" display offering convenient touch and gesture control.

ŠKODA CONNECT: TAKE THE ONLINE WORLD WITH YOU

Stay connected wherever you are. Being online fully and permanently means not only having access to entertainment and information, but also possible assistance while on the move. ŠKODA CONNECT is your gateway to a world of unlimited communication possibilities.

ŠKODA CONNECT

This offer includes two categories of service. While Infotainment Online delivers real-time information to navigation about traffic, for example, Care Connect focuses on help and safety, enabling remote access and control of the vehicle. It also offers an assistance service for any situation that needs it.

PARKING POSITION

Retrieve the exact location of your car in large car parks from anywhere, by displaying the address, time and date of parking on your mobile phone.

DRIVING DATA

Information about your journey, such as average consumption, average speed, distance and journey time, is stored. You can display your personal driving data and have an overview of all your trips.

EMERGENCY CALL

The SOS call is made automatically during an emergency where the restraint system has been activated. This emergency system can also be activated manually by pressing the red button on the roof console.

WEATHER

Get the latest weather report for your current location, destination or anywhere else with detailed forecasts, including precipitation predictions and warnings.

SMARTLINK+

With the SmartLink+ system (ŠKODA Connectivity bundle supporting MirrorLink®, Apple CarPlay, Android Auto) the car's infotainment system enables the driver to safely use the phone while driving. Plus, all installed applications that are certified as safe for vehicles are compatible with MirrorLink®, Apple CarPlay or Android Auto. The SmartLink+ system also enables you to send car data via cable to your smartphone which gives you access to interesting information about your drive, like driving economy, driving dynamics or service information. (Visit our website for usage terms and compatibility information for SmartLink+.)

ONLINE TRAFFIC INFORMATION

Always take the best route: up-to-date information gives you a perfect overview of every trip. It also enables you to react to new developments, such as roadworks, accidents and traffic jams.

IMAGE DISCLAIMER

The images presented in this catalogue (brochure) are used for illustrative purposes only and are not intended to form part of any contract or warranty. They display pre-series cars and certain illustrations, features, parts and equipment may differ from the actual production cars and from country to country. To get the exact specification of features, parts and equipment, please get in touch with your nearest local ŠKODA dealer.

MyŠKODA App

Get your very own personal digital companion. Download MyŠKODA App featuring PAUL, an interactive assistant who's there to help you, not only with watching over your car, but also with managing your day.

ŠKODA Connect App

Enjoy full control of your car. Download ŠKODA Connect and access all necessary features anytime, whether it's driving data, fuel range, planning a route or even where you last parked.
